09.07.2023

PROJECTS

OnlineFlightBooking | SOFTWARE DEVELOPER

- Developed in collaboration with my team.
- Created a Software application that is similar to the process of web Login before Flight Boarding .
- Used PHP as frontend and phpmyadmin database as backend.

🐙github.com/PradeepKumar368/Airline-Reservation.git

PORTFOLIO WEBSITE | FRONTEND DEVELOPER

- Developed a visually appealing portfolio website using ReactJS to showcase my projects and skills.
- Implemented certain features and animations to enhance user experience.

Software-Microsoft Power Bi

- Data Analysis - Imported Data From Global Marketing Super Store (2016) And Made a Interactive Dashboard With The Help of Microsoft Power-Bi.

🐙github.com/PradeepKumar368/Power-Bi.git

Cloud Computing & PHP(Database)

Customer feedback Website - PHP

- Hosted a Customer Feedback Website using Amazon-AWS (Amazon Web Services).
- Integrated AWS-RDS, EC2 (Elastic-Cloud-Computing) & other components to host the Website.
